

After Incident Report Lessons Learned Center

The purpose of the After Incident Report is to identify both successes and challenges on an incident that can be used as a learning tool for others. The lessons learned in the report will also be used to improve training curriculums. Issues and trends that are identified may have Information Collection Teams assigned to them in the future for further analysis and resolution.

Type 1-5 incident commanders and agency administrators are requested to complete the following questionnaire for each incident they manage. Crews and single resources are also encouraged to complete the questionnaire for incidents they participated in:

Incident Name and Type: Biscuit Fire AC **Dates of Assignment:** Sept. 02, (2 assignments)

Unit or Jurisdiction(s): Rogue/Siskiyou NF **Geographic Area:** Pacific North West

Report Submitted by: Rex Mann Area Command **Phone Number:** Contact WFLLC by E-mail

1. What was the most notable success at the incident that others may learn from?
An amazing safety record, in spite of a shortage of safety officers teams were very focused on safety.
2. What were some of the most difficult challenges faced and how were they overcome?
Acting agency administrators at every level. It was overcome by bringing in an experienced, Ex-forest supervisor.
3. What changes, additions or deletions are recommended to wild land fire training curriculums?
I believe area command needs to include safety, fire information and finance positions on large incidents.
4. What issues were not resolved to your satisfaction and need further review? Based on what was Learned, what is your recommendation for resolution?
Contract crews needs better contract administration.

Please submit this report to the Lessons Learned Center at the National Advanced Resource Technology Center (NARTC) attention Paula Nasiatka (pnasiatka@fs.fed.us or Fax 520-670-6413)

Thank you for completing the report. Others can learn from your experiences.
