

## ***After Incident Report Lessons Learned Center***

The purpose of the After Incident Report is to identify issues that occurred on an incident and how they were resolved. The lessons learned in the report will also be used to refresh or update training curriculums. Issues and trends that are identified may have Information Collection Teams assigned to them in the future for further analysis and resolution.

Type I – V Incident Commanders and Agency Administrators are requested to complete the following questionnaire for the incident(s) that they managed. Crews and single resources are also encouraged to complete the questionnaire for incidents they participated in:

**Incident Name: Blue Cut**                      **Dates of Assignment: June 16 to June 23**

**Unit or Jurisdiction(s): USFS AND CDF**                      **Geographic Area: CA SOPS**

**Report Submitted by: Don Studebaker**                      **Phone Number: 858 674 2948**

1. What was the most notable success at the incident that others may learn from?

*Riverside Fire Lab-Pacific Southwest Research Station has developed a remote sensor platform, the platform is in a FS owned aircraft and is available on request through South Operations or North Operations. Phil Riggan is the Lead for this project. His interest is to develop transfer technology to the ground of the types of information that is useable. Key here is the data is posted to the Web and can be pulled down and does not require an interpreter. The system is called the FIRE MAPPER (Thermal-Imaging Radiometer) Data can be placed on relief topo maps and number of sensor can provide array of different data. System has a lot of promise. Dr. Riggan can be reached at the following email: priggan@fs.fed.us*

*Encourage Situation Unit Leaders take advantage of this resource and they can use the help refining the technology transfer to the end user.*

2. What were some of the most difficult challenges faced and how were they overcome?

*Fire was routine otherwise*

3. What changes, additions or deletions are recommended to various training curriculums?

*None*

4. What issues were not resolved to your satisfaction and need further review? Based on what was learned, what is your recommendation for resolution?

*None*

Please submit this report to the Lessons Learned Center at the National Advanced Resource Technology Center (NARTC) attention Paula Nasiatka([pnasiatka@fs.fed.us](mailto:pnasiatka@fs.fed.us) or Fax 520-670-6413)

**Thank you for completing the report. Others can learn from your experiences.**
