

**[Video: “We Will Never Forget You—Remembering Andy Palmer”](#)**

(Video Run Time: 16 minutes, 38 seconds)

This—wildland firefighter Andy Palmer’s tragedy—is the story of how we arrived at today’s Dutch Creek Protocol guidelines for emergency medical response and extractions. The video’s conclusion stresses the importance of three key questions: “1) *What will we do if someone gets hurt?* 2) *How will we get them out of here?* 3) *How long will it take to get them to the hospital?*” This is our second presentation in this year’s “Firefighter: Remember This” video series.
