Incident Name: **Reese Fire**

Assignment Dates: July 7 - July 9, 2002

Unit Jurisdictions: Med - Bow N.F.

Geographic area: Rocky Mountain

Submitted by: Bill Swope

Submitter's Email: bswope@fs.fed.us

Phone Number: 406-449-5490

Most Notable Success: None

Most Difficult Challenges: We were tasked with demobing a large type I incident within a couple of days. Packaging all of the Region 8 crews to demobilize together facilitated this process.

Lack of computer support made it extremely difficult to merge resource data bases. This made it difficult to do time keeping, and organize the demobilization effort.

Recommended Training Changes:

Unresolved Issues: We did another 1800 team transition. See Hensel Fire for more specifics and recommendation.
