

After Incident Report Lessons Learned Center

The purpose of the After Incident Report is to identify issues that occurred on an incident and how they were resolved. The lessons learned in the report will also be used to refresh or update training curriculums. Issues and trends that are identified may have Information Collection Teams assigned to them in the future for further analysis and resolution.

Type I – V Incident Commanders and Agency Administrators are requested to complete the following questionnaire for the incident(s) that they managed. Crews and single resources are also encouraged to complete the questionnaire for incidents they participated in:

Incident Name: SAND FLAT Type 4 Dates of Assignment: 05/26/02

Unit or Jurisdiction(s): ENF Placerville Geographic Area: Sand Flat Campground

Report Submitted by: Mike Chiodini Phone Number: (530)647-5341

1. What was the most notable success at the incident that others may learn from?

Fast response to assist the injured – a quad runner rollover, one patient with a broken femur and multiple lacerations.

2. What were some of the most difficult challenges faced and how were they overcome?

- ***Bloodborne pathogen exposure – PPE and gloves were used.***
- ***Victim was over the side – hauling system was used to bring them up.***

3. What changes, additions or deletions are recommended to various training curriculums?

First responder and EMT skills are needed.

4. What issues were not resolved to your satisfaction and need further review? Based on what was learned, what is your recommendation for resolution?

All resolved.

Please submit this report to the Lessons Learned Center at the National Advanced Resource Technology Center (NARTC) attention Paula Nasiatka(pnasiatka@fs.fed.us or Fax 520-670-6413)

Thank you for completing the report. Others can learn from your experiences.
