

Incident Name: Creek Fire Hit By Log (2020)

State: California

Date: 11/3/20

Incident Type: Hit By Log

Description of the Incident:

A U.S. Forest Service contract firefighter rehabbing dozer line on the Creek Fire on the Sierra National Forest sustained a crush injury to a finger when a log was inadvertently tossed onto the victim's hand. The patient was transported via ground ambulance to a local hospital and was subsequently treated and released to light duty.
