

Incident Name: Whiskey Fire Medical Emergency (2019)

State: Arizona

Date: 9/16/19

Incident Type: Medical Emergency

Description of the Incident:

A Coconino Fuels Crew Firefighter felt ill during morning briefing on the Whiskey Fire on the Coconino National Forest. The Firefighter continued to the assigned duty and then informed Line EMTs of the ill feelings. While talking to the Line EMTs the Firefighter lost consciousness. The Firefighter was then taken by ground ambulance to a hospital where the Firefighter was evaluated and released to rest.
