

Incident Name: Glacier Fire Cut Hand (2021)

State: California

Date: 7/14/21

Incident Type: Medical or Exertion or Heat

Description of the Incident:

A firefighter cut their hand while hiking into the Glacier Fire on the Inyo National Forest. The wound required stitches. The patient was transported via helicopter to Bishop Helibase and then ground transported to the Northern Inyo Hospital for treatment. The firefighter has returned to their duty station. A follow-up medical appointment has been scheduled.
